

Summer Intern

Mackey Mitchell Architects, P.C.

At Mackey Mitchell Architects (MMA), we strive to provide an environment where you can utilize the skills you have received. We like to ask the question of our Summer Interns “What do YOU hope to achieve this summer?”. In other words, how can we help expand your knowledge and experience in architecture to prepare you for your final year(s) in school and a career. Some of the experiences you may have as an MMA intern are in-office design charettes, project team meetings, site visits, exploring new products and methods, a general overview of how we perform marketing, as well as general project work. Our expertise has been in Student Life design, working for universities across the country. We also have local civic and institutional work in our main St. Louis office. We would love to have a conversation to see where you are in your education and where you hope to be in the future. A summer intern should not be viewed as just a job for the summer but a responsibility on the firm you choose to enhance your learning thru experience at all levels.

Education and Professional Experience:

- Currently enrolled in a program for a degree in Architecture.
- Proficient in Revit.
- Must be proficient in Microsoft Office (i.e., Excel, Outlook, Word). Familiarity with Adobe suite desired.
- Able to prioritize and perform a broad range of simultaneous duties.
- Excellent organizational skills and attention to detail. Team oriented.
- Strong verbal and written communication skills.
- United States Work Authorization required.
