

Architectural Project Designer

Mackey Mitchell Architects, P.C. | St. Louis, MO, Dallas, TX, Asheville, NC

We are seeking an experienced and creative Architectural Project Designer to join our team. The ideal candidate will have experience leading the design process for complex projects and collaborating with internal teams and clients to create innovative, sustainable, client-focused solutions. This role requires both conceptual and technical design skills, strong communication abilities, and a passion for excellence in architecture.

Responsibilities:

- Work closely with the team throughout every stage of the design process
- Demonstrate a passion for conceptual and detailed design exploration and iteration
- Produce high-quality graphic communications, including renderings, diagrams, and design presentations
- Research and integrate sustainable design solutions into projects
- Maintain exceptional standards for quality, time management, and attention to detail
- Manage complex, large-scale projects and develop creative solutions that respond to client needs and environmental context
- Work comfortably on urban, large-scale, or mixed-use projects, considering broader contexts such as urban planning and public space
- Apply advanced knowledge of sustainability, energy-efficient design, passive strategies, and green building certifications
- Handle challenging client demands and changes in scope, ensuring client satisfaction while maintaining project integrity

Qualifications

- Accredited professional architectural degree (Bachelor's or Master's)
- Registered architect
- 8-15 years of work experience leading design efforts
- Proficient drawing ability (hand sketching) and computer skills (Revit, SketchUp, Adobe Creative Suite, other 3-D visualization/rendering software)
- Strong verbal and graphic communication skills, and a good listener
- Focused on clients and skilled at building relationships
- Strong interpersonal skills and ability to work well in teams
- Proven track record leading and facilitating design meetings with diverse clients and user groups
- Ability to synthesize client input and quickly arrive at balanced, innovative design solutions
- United States Work Authorization required.

We offer a comprehensive benefits package to ensure the well-being of our employees and their families, including health and disability insurance, paid parental leave, wellness reimbursements, mentorship and coaching, flexible work schedules, volunteer time, and more. We also support your professional journey by providing study materials, paying for testing, and reimbursement for professional memberships.
